0 - Hannah's Camping Trip

*Character based on Joon Mali

"No not again!" The petite, ultra cute Filipino tells herself as she rushes to the bathroom with a hand to her cute round butt.

"Why does this keep happening?!" She asks herself as her stomach gurgles angrily. Stumbling into the outhouse panting, Hannah locks the door behind her as several farts escape from her perfect ass.

Running a hand over her tight core, the little over five foot tall, adorable Hannah moans while her gut swirls and bubbles loudly. A perky and spoiled college freshman out in the woods with her rich sorority sisters, the nineteen year old has been having rather violent diarrhea the last couple of

days, and it has been increasing significantly over the last couple of hours. Unbeknownst to the teen, as she pulls down her yoga pants and sits her firm, curvy ass on the wooden seat with a loud sigh, but aliens have targeted her for cross-species insemination. With a uterus utterly too small for procreation, the slimy aliens instead transform their hosts intestinal tract into an egg chamber. The aliens have been keeping track of Hannah's progress, and the stupid entitled brat was nearly ready.

"Oh god! My stomach is killing me!" She whines, bracing her hands on her knees while straining, her efforts paid for with a loud, sharp, dry fart.

"Ow!" She cries, her swollen anus puckering and pulsating, "It hurts." Once pink and cute, Hannah's constant straining, farting, and shitting has turned not only her asshole but the surrounding area raw.

Gathering her strength, Hannah takes a deep breath and leans forward while shaking in effort, the cutie letting out a shrill pained grunt upon a loud, sputtering wet fart. Moaning in discomfort and whimpering, Hannah's firm ass squirts a steady stream of hot milky white slime. The stream slowing down for a moment, the teen sighs before wincing and grunting as her anus sputters globs of slime out in prolapse inducing farts. Rushing through her bowels at an erratic rate, the slime serves to stimulate and prepare the victim's rectum for procreation, and Hannah's explosive, tear inducing expulsions show she is more than ready.

"So gross!" Hannah moans before yelping upon several pained farts.

"My ass is so sore! Ow, ow ow! Oh god I can feel more coming oohhhh..." Hannah cries as the stream renews with vigor, the teen gripping the toilet seat as she expels a massive river of slime, stretching her almost two inches wide. After several feet of slime pops out of her swollen pooper, Hannah is able to catch her breath if only for a moment.

"Why is this happening?" She grumbles, "I think I need to see a doctor!" Grunting another long steady stream of goo out, the sexy, sweating babe has no idea that the length of her virgin rectum is coated with life sustaining cum.

"When is it going to stop?!" The helpless girl cries, shrieking in pain upon inhumanely strong farts that cause her to nearly fall off the toilet, her anus stinging sharply as it swells in size. Listening to the teen

explode goo from her round backside, the aliens can tell she is ready for impregnation, and call for her to be taken up to the ship for breeding.

On the toilet in miserable pain, squeezing out gallons of viscous hot slime from her sore, puckered anus, Hannah is in tears before she gasps upon the outhouse being filled with a bright white light.

Waking up face down on the ship in chains, Hannah is gagged and her asshole is sore and wet.

Between her meaty round cheeks the teen's rectum drools, her puffy, perfectly round anus making a circle. With her thick thighs covered in white slime from her oozing anus, Hannah groans upon a booming fart that sends slime shooting from her ass, her fat anus appearing to breath as it retracts and protrudes rapidly from her body over and over.

Behind the confused, groggy teen, a large, bumpy tentacle the size of a baseball bat lined with eggs the size of baseballs take aim at her modified pooper. Still catching her breath, Hannah lets out a panicked cry as she feels the massive, anal bead like monster press into her virgin, but transformed ass. Lined with a strong lubricant, aphrodisiac, and muscle relaxer, the creature forces the girl's o-ring to spread, the teen bawling in protest at the extreme pain. Stretching her steadily, the first massive 'bead' pops into the sobbing girl, quickly followed by a second and a third bead that make the cute teen thrash against her bindings. Pulling out equally slow, Hannah grunts loudly as each bead pops out, turning her inside out momentarily when the last one is pulled from her gaping ass. Not wasting time, the monster plunges back into the petite beauty, and then back out, the monster caring not for the girl's cries of agony as she is butt fucked relentlessly. Now convinced that she is comfortable with three, the monster shoves in the fourth, and Hannah finds herself, despite the intense pain, growing aroused.

"This can't be happening! It hurts so much!" She tells herself as she is forced forward and back upon the deep thrusts of the tentacle, "I'm going to cum!"

Sensing its mare is growing loose and is nearing orgasm, the tentacle begins slamming into and out of the tiny, fat bottomed cutie, forcing five beads of itself into her ass at once. Wide eyed and in miserable pain, Hannah groans in confused pleasure as she is raped to orgasm. Over and over Hannah's body grows tense, the teen on the verge of cumming but pulling herself back despite her pussy dripping and her heart rate racing. After ten minutes, however, she is fucked senseless and is forced to cum, the broken teen weeping as the creature lies five eggs deep into her round ass. Pulling out, Hannah's thick anal ring gapes an inch wide, the exhausted girl soon after passing out.

Waking up in her tent, Hannah finds her butt feels perfectly fine but her head pounding. According to her friends she drank way too much, but came back from the bathroom right away. Two weeks pass and nothing strange happens, and Hannah puts it all down to a bad dream until one night when she is home alone.

1 - Hannah's Intense Labor

*Character based on Joon Mali

Hannah remembered being anally raped and impregnated two weeks earlier, but she put it down to a bad dream when she woke up seemingly fine. At her home alone, however, Hannah's stomach starts to gurgle and bubble, the petite beauty quickly heading for the bathroom. Walking through the hallway, however, she gets a sharp pain in her belly that makes her nearly fall down. Standing back up, she takes a few more steps before suddenly screaming in agony as a debilitating wave of pain rocks her body, the teen falling to the floor. Opening her eyes, the terrified girl finds herself back on the alien ship, naked, and flat on her back with two skinny tentacles pulling out of her ears.

"No please! It's not possible!" She cries, looking up and shrieking in horror upon seeing her massive, pulsating belly. Rubbing a tummy which made her look due with triplets, Hannah didn't realize that the aliens never let her leave the ship two weeks ago, and instead put her in a virtual world while she came to term.

"Oh no!" She whines, "Something-ow fuck! Something is happening to my ass!" Getting onto her elbows, Hannah spreads her thick thighs wide apart and, throwing her head back, forces all her might against her reprogrammed, re-purposed anus, the teen's pooper swollen red into an inch wide puffy, bulging, and perfectly smooth circle.

"Ow! Oh fuck the pain!" Hannah whines as her anus clenches and protrudes, her efforts met with a small squirt of goo that leaves her asshole drooling and throbbing. Having now entered fully into labor, the rectally impregnated teen rubs her swirling mass for two minutes before another contraction rocks her body, forcing the girl to once again throw her head back and groan in discomfort as she pushes hard against her puckering anus for a solid twenty seconds, only to be reward with a humble fart and squirt of goo before collapsing to catch her breath.

"Get them out of me! I can feel them moving!" She bawls as she lays flat on her back panting and sobbing, another two minutes passing before she is forced to push again. This process goes on for hours, and the petite teen's contractions growing closer and closer until they are only thirty seconds apart. For all her effort, pain, and in spite of having her ass modified for breeding, Hannah has only forced out a small puddle of goo from her bright red oozing asshole. The beautifully cute and pampered girl is not dilating correctly and, impatient for results, the aliens send in a helper. Slithering along the ground towards the girl's ass, a suction cup like tentacle, clear and with a gaping three inch wide mouth, latches itself around Hannah's sore anus.

"What the hell is that?!" She whines before another contraction hits her, the girl pushing as hard as she could. Her familiar grunts and moans of labor however were turning into savage cries upon the attached tentacle sucking as hard as it could, pulling not only extra slime from the teen's packed ass but also pulling out her tired anus.

"FUCK FUCK FUCK!!!" She wails as the tentacle milks out an extra glob of slime before stopping,

leaving Hannah's asshole slightly larger than before and in significant more pain.

"What are you doing to my butt?!" She whines before moaning in embarrassment as the tenacious tentacle begins gently sucking on her drooling, engorged teen's asshole, extracting several globs of slime from her ass before the red faced cutie was forced to bare down on herself. Sucking hard on the Asian's round meaty ass, the tentacle pumps the teen's asshole like a milking machine, forcing her anus to enlarge as it sucks out several large squirts of slime, leaving Hannah in helpless misery. After her contraction ends, Hannah once again feels her enlarged asshole get gently milked, the teen in tears at her cattle like condition.

"Please make it stop! My asshole is so sore!" Hannah cries, but it is for not. After several more hours of this debilitating treatment, Hannah's anus is massive and bulging, the tentacle sloshing full of slime it has sucked out of the girl's full backside. Unbelievably to the aliens, however, her 'water' still has not broken. Never has a human labored so long, but then again the eggs laid in her were experimental queen eggs. Desperate for results and needing more queens for their war, the aliens decided to go go all out. Commanding the tentacle from afar, the aliens order it to start sucking as hard as it could non-stop. Hannah, flailing on her back as the tentacle obeyed, sobs bitterly as her massive, modified anus is steadily sucked further and further up the length of the tentacle. Unable to form words, Hannah simply cries as her anus is sucked two inches up the tube before the tentacle in filled with an explosion of slime. Finally her water has broken and the aliens order the tentacle off her.

Pulling off with a pop, the tentacle slithers away as the girl's asshole prolapses several times. Only seconds after her ruined anus stops, however, Hannah's ass begins to stretch slowly around a massive ball of slime. On her elbows and gritting her teeth, Hannah yelps, screams, and bawls as she forces herself open nearly four inches, the slimy plug crowning before it is powerfully shot across the floor in what could only be described as a violent explosion of cum and slime, the girl farting out a steady stream for half a

minute before it sputters to a stop a minute later. Gaping almost two inches wide, Hannah's anus twitches and convulses, the breaking of her water a cue for her reprogrammed anus to start contracting every five seconds.

Finally, the aliens think, she is about to give birth. Hannah, taking deep breathes in-between pushing out steaming hot slime every five seconds, can feel something barreling down her rectum on every contraction, and she could tell, lying on her back and farting without rest, that it was going to be big.
